Jeff Halfman: Golf Course: Course/Parks and Lawn bowling areas improving after winter weather. Also, the help of the new drainage system on the fairways that have been installed. Thanks to the maintenance crew for all the help keeping the areas looking nice. Outside winter work is not fun. Yes, they take care of all common areas also. Getting back to riding mower's as the ground gets dryer. We will be treating shortly for some spring grass disease's. Will be doing some more sanding of the fairways for drainage, new sander is a big help. Thanks to board members and votes to keep the golf course looking nice...! Might need some tress to replace some of the Birch trees that are dying. Birch trees not responding to spraying for blight disease so can we save some money by just replacing them. Thanks Jeff...

Again, this year ladies will get new pink flags, pink rings for the flag cups on the greens for the cancer awareness event. Men's club will help with this. Working on getting some new sponsors for the year. Cupcakes for Janet's birthday. Ladies want to help with tree replacement. Thanks Diana.
